22 JUL 2016

Sub: Project Monitoring of IPDS - Regarding

Dear Sir,

Monitoring Committee has sanctioned projects worth Rs. 25880 Crore under IPDS for 528 Distribution Circles and an amount of Rs. 5500 Crore has been budgeted for release during the current financial year, based on the progress of implementation of projects. The projects shall be implemented within a stringent timelines as per IPDS guidelines. This requires all the stakeholders of the schemes to prioritise, expedite and monitor the execution of works effectively. To get status of the scheme implementation on pan India level, IPDS guidelines envisage monitoring of progress of projects on a dedicated web portal.

PFC, the nodal agency, is in the process of developing a web based monitoring system for IPDS wherein Utilities shall require to upload town-wise scheme details and physical as well as financial progress on regular basis. In the web-solution being developed the total work content of the scheme (circle wise) shall be converted into aggregate of small measurable work quanta named as milestones/work-units. The algorithm for this conversion to quanta shall be developed in the web solution centrally to ensure uniformity.

The web based monitoring system shall facilitate in capturing progress of project execution vis-à-vis the planned targets and generating desired MIS. The inputs on the web portal by Utility with the help of PMA can enable PFC for early processing release of grants, closure of projects etc.

Effectiveness of monitoring largely depend on uploading of appropriate data on time at Utility's end. This requirement has been foreseen and adequate provisions have been kept in the scope of work of PMA as detailed below:

- MIS & Web-portal updation
- Assisting Utilities in timely updation of information on Utility / Nodal agency Web-portal.
- Periodic reporting to the Project Management cell of Utility.
- Any other works as may be required to achieve the objectives of the scheme.
- Coordination & monitoring of project implementation activities.
- To monitor DPR wise monthly physical & financial progress of the scheme, prepare a consolidated report & submit to utility for onward submission to nodal agency.

A web based monitoring has been developed and is operational for day-to-day monitoring of IPDS project under execution at Kashi (www.kashiipds.com). The proposed web monitoring solution is being developed in line with the Kashi project monitoring system. You may please advise your concerned officers and PMA's team to get acquainted with the Kashi model. This shall help them visualize the type of solution we are aiming for and their role. Also your valuable suggestions will enable development of better IPDS web monitoring. Meanwhile you may prepare roadmap for IPDS project execution, expedite the process of awarding of contracts and activate the PMAs to ensure their role as envisaged in the guidelines.

With regards,

Yours Sincerely,

(Radhika Jha)
