(As per List attached)

**Sub: Procurement of major high value equipment's/items under Govt. of India's initiative to facilitate States in mobilization of quality equipment's/ materials under DDUGJY/IPDS Schemes.**

Dear Sir/Madam,

This has reference to US, MoP's letter No.44/30/2015-RE dated 21.07.2016 enclosing the minutes of meeting held on June 29, 2016 in Ministry of Power under the Chairmanship of Hon'ble MoS (IC) for Power, Coal and New & Renewable Energy on "Equipment Procurement", REC letter No. REC/DDUGJY/NIMM/736 dated 21.07.2016 and REC/DDUGJY/ NIMM/745 dated 26.07.2016 (copies enclosed for reference).

In view of above, you are requested to execute the works on full turnkey/partial turnkey/ departmental mode as approved by the Monitoring Committee and place the orders immediately for timely completion of the projects. It is once again reiterated that the technical specifications finalized by Committee-A are to be adhered to.

Further, as discussed during the MoSP (IC) meeting on 29.06.2016, Utilities are required to adhere to strict testing and inspection to ensure control on the quality of the materials. In this regard, the Manufacturing Quality Plans (MQPs) as well as Field Quality plans (FQPs) as suggested by PGCIL for ensuring quality implementation have already been uploaded at IPDS web portal ([www.ipds.co.in](http://www.ipds.co.in)). You are requested to look into these documents and suitably incorporate in the relevant Quality System at your end.

This is for kind information and further needful action please.

Thanking you,

Yours faithfully,

**Minutes of meeting held on 29.06.2016 in Conference Hall at Ministry of Power, Shram Shakti Bhawan, New Delhi on 'Equipment Procurement' through Empanelment of Vendors under DDUGJY and IPDS.**

In order to facilitate and handhold States in mobilizing major equipments/material with Standard Technical Specifications at competitive prices through a transparent bidding process under DDUGJY and IPDS schemes, two committees viz. Committee 'A' and Committee 'B' were constituted under the chairmanship of Chairperson CEA and Director (Projects), PGCIL, respectively with the approval of Hon'ble MOSP(I/C). The objective of the Committee 'A' was to list out major equipment/material, finalization of technical specifications, aggregation of quality requirements of various States and vendor empanelment. The objective of the Committee 'B' was preparation of bidding documents, carrying out bid processing through-tendering under reverse bidding mode, evaluation of bids and finalisation of rate contracts. Several States, during the Power Minister's Conference at Goa on 16-17 June, 2016, raised the issue regarding differential prices in items procured by them vis-a-vis under Common Procurement Procedure (CPP). Thus, it was agreed to have a re-look on the issue.

2. In continuation to the aforesaid Conference, a meeting was chaired by Hon'ble MoS(IC) for Power, Coal and New & Renewable Energy on 29<sup>th</sup> June, 2016 at 3.00 P.M. The list of participants to the meeting is at Annex.

3. Representatives from state of Uttar Pradesh (UP) informed that in some cases, price of conductor received in their tenders were lower than CPP rates. Representatives of Madhya Pradesh also conveyed similar price trend.

4. CMD/PGCIL explained that price depends on many factors such as payment terms, whether maintenance cost is included, geographical proximity of vendor to the supply depot. He further explained that PGCIL had followed bucket filling approach, under which every subsequent filling is at higher price. Also as it was like rate contract, bidders were not sure of the quantity they'll get to supply, whereas in case of the tenders by States, supply quantity was assured. He further added that many vendors which were ineligible in the CPP, did aggressive bidding in the State tenders to get the supply order, as the State tenders were done subsequently to CPP rates where competitive rates were discovered.

5. It was also mentioned that as per column 2 of MoP Ref. No.44/30/2015-RE dated 14.08.2015, states are free to procure the material of their own, if it is felt that their rates are less than the CPP rates. However, the sanctioned cost will not be more than the CPP rates.

6. It was appreciated that the exercise has already defined the bench mark of quality and specifications. It has also indirectly set a standard of prices.

7. CMD, PGCIL informed that the testing process and standard usually adopted by PGCIL is much higher than that followed by most of the DISCOMs, which could also be a reason for higher quotes. The Hon'ble Minister emphasised about the strict testing and inspection to ensure control on the quality of material. It was desired to increase the sample size and monitor quality at the factory as well as to prevent slippages. Members expressed concern about long wait for quality check at Central Power Research Institute (CPRI). Hon'ble Minister instructed CPRI to enhance their capacity increase quality control labs and to submit a plan for the same to the MOP within 15 days.

8. POWERGRID will prepare a Quality & Inspection Plan for equipments which will be submitted to REC & PFC for suitable action.

9. After the threadbare discussion, it was also decided that II<sup>nd</sup> tranche of procurement stands cancelled.

DISCOMs/SEBs/Power Deptt.

**Subject: Procurement of major high value equipments / items under Govt. of India's initiative to facilitate states in mobilization of quality equipment's/materials under DDUGJY/IPDS Schemes.**

Dear Sir/Madam,

As you are aware that Ministry of Power vide Office Memorandum No 44/15/2015 dated 14.08.2015 had formed two committees viz. Committee 'A' & 'B' under chairmanship of Chairperson CEA & Director (Projects), PGCIL to facilitate and handhold states in mobilizing major materials with Standard Technical Specifications at competitive prices through a transparent bidding process under DDUGJY / IPDS Schemes.

Committee A had identified the major high value items and had finalized Technical Specification for items viz., Power Transformers, Distribution Transformers, Conductor and AB Cables. Committee B had empanelled the vendors and invited price bids followed by e-reverse auction for 40% of the total quantity under Tranche-I. The price discovered under tranche-I were communicated to states by REC vide our letter No. DDUGJY & IPDS/Phase-I/Comm.B/336 dated 13/05/2016.

However, several states had raised their concern regarding differential prices in items procured by them vis-à-vis under new initiative materials mobilisation.

Accordingly, a meeting was held on June 29, 2016 in Ministry of Power under the Chairmanship of Hon'ble MoS (IC) for Power, Coal and New & Renewable Energy to review the issues pertaining to rate discovered under new initiatives for materials mobilisation where it was decided that states are free to procure the materials of their own, if it is felt that their rates are less than the CPP rates. However, the sanction cost will not be more than the CPP rates. Also, it was decided that 2<sup>nd</sup> tranche of procurement stands cancelled. A copy of minutes of meeting is available at REC web portal for reference.

This is for kind information and further needful action please.

Yours faithfully

**Subject: Procurement of major high value equipments / items under Govt. of India's initiative to facilitate states in mobilization of quality equipment's/materials under DDUGJY/IPDS Schemes.**

Dear Sir/Madam,

This is continuation to our letter no. REC/DDUGJY/NIMM/736 dated 21-07-2016 vide which outcome of central procurement under DDUGJY/IPDS was conveyed. In this regard, it is further clarified as under:

1. PIAs/Discoms /Power Department may go for full turnkey execution of the project as per approved Standard Bidding Document circulated earlier subject to condition that they will adhere to the technical specifications finalized by committee-A.
2. PIAs/Discoms/Power Department may procure the materials through their own purchase department and execute the works on partial turnkey subject to condition that they will adhere to the technical specifications finalized by committee-A.

In both the above cases, PIAs/Discoms /Power Department shall adhere to strict testing and inspection to ensure control on the quality of the materials. They shall increase the sample size to ensure quality monitoring at the factories as well as to prevent slippages.

This is for kind information and further needful action please.

Yours faithfully
